

## ***FREQUENTLY ASKED QUESTIONS***

---

### ***How long will I need to stay?***

Length of stay depends on your medical condition and how long it takes to meet treatment goals. You and your team will set your goals.

### ***What should I bring with me?***

Bring toiletries and clothes. Comfortable clothes for exercise, and shoes and socks are needed for therapy sessions. The hospital will supply pajamas if needed. A bedside locker is provided for personal belongings. Please do not bring large amounts of cash or valuable items. Bring a medication list, but leave your medications at home.

### ***Where can my family stay?***

The Fisher House offers lodging to family members of patients. Family of OIF/OEF active duty service members receives priority.

Hospital Hospitality House (HHH) is one low cost lodging choice available to family members. It is located approximately 5 miles away from the hospital.

Please speak with a social worker for a referral to the Hospital Hospitality House, Fisher House or other nearby hotels.

## **SCI&D REHABILITATION PROGRAM**

The Spinal Cord Injury & Disorders (SCI&D) Service is located on the first floor of the Richmond McGuire VA Medical Center. Housed within the hospital, patients have quick access to all services to best meet their medical needs.

Patients in the SCI&D service are assigned to a treatment team led by a physician specializing in Spinal Care medicine and rehabilitation. On admission, patients can expect a full evaluation by each member of the treatment team. Patients will meet with the team to talk about goals and how they will meet those goals. Discharge planning also starts with admission for a successful return to the community. As progress is made with therapy, plans are updated and changed as needed.

After discharge, patients are asked to return at 3 and 6 months for a short reevaluation by the team to look for any changes or problems. All patients are asked to return at least yearly for a full evaluation. The SCI&D Service follows patients over their lifetime to meet their changing needs.
